Dear Parents & Guardians,

We are so excited to welcome your children into our Grade 7/8 classrooms this September. The back of this letter contains a list of school supplies that your child will be using in their courses throughout the year. Please let one of us know if there are any issues getting a hold of these materials and we will be happy to help.

The level of organization required by students in junior high school is significantly higher than that which is required in elementary school. Students are expected to play a much larger role in maintaining an organized binder, arriving to each class with all necessary school supplies, keeping their locker tidy, and staying on top of due dates for assignments in various classes. Understandably, many students find this to be a large change from previous years - particularly Grade 7s who are new to junior high. Our goal as a team is to foster these skills in our students - physical and academic organization - so that they can be successful in their school careers and beyond.

While we will be doing what we can in school to reinforce these skills, we would love to have your help, and welcome you to join us on this journey with our young learners. It is easy to assume that by this age, students are capable of organizing themselves - but this is often not the case! An occasional quick check-in with your child to ensure that their binder is still organized, school supplies still well-stocked, and assignments are up-to-date can be game-changing.

As always, please let one of us know if we can help at any time. We are thrilled to be back at ESS teaching another group of wonderful students, and looking forward to working with you to encourage their continued success.

Cheers,

Your ESS French Immersion Team
