Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

- We reviewed and answered questions about the Student Success Survey and discussed how the data is used at the school.
- Each meeting we discussed our SSP work including recent assessment data and strategies we are using to support the students who are not yet meeting benchmarks.
- We shared information about staff involvement in various professional development and coaching opportunities and how this work supports student success.
- Last year, SAC funds were used to purchase technology to support our growing student population.

- Student members would share information from their perspective about various school related topics including the importance of sports and music programs etc.

Please list any significant milestones and success stories that the SAC would like to highlight.

- Although not a milestone, we reviewed the EECD and HRCE policies and how they are implemented at the school. Of particular focus was the finance policy including the move to online purchasing using SchoolCash as well as the Food and Nutrition policy.
- We often talked about how our school’s population growth is changing how we do things at the school such as community events and concerts. This will continue to be a conversation next year.
- With the announcement of an 8-class modular being built onsite, discussing the progress was a regular agenda item.

Please describe any related sub-committee work undertaken by SAC members (e.g., School Options Committee).

Although some of our SAC members are also members of our PTA, we do not have any specific sub-committees of our SAC.
